TRANSGENERATIONAL THERAPY WORKSHOP IN PARIS

WORKSHOP

This unique two-day workshop introduces the latest scientific developments in Transgenerational studies and participants will have the opportunity of experiencing and practicing Transgenerational therapy tools and techniques. The workshop, held by Manuela Maciel and Leandra Perrotta, Trainers at the Anne Ancelin Schützenberger School of Transgenerational Therapy, will demonstrate the original psychogenealogical approach created by the Founder and main Trainer of the School, Prof. Anne Ancelin Schützenberger.

After Anne's death in March 2018, just a few days before her 99th birthday, Hélène Schützenberger, Anne's daughter, together with the trainers of her School, decided to keep the yearly tradition of organizing the Transgenerational Therapy Introductory Workshop in Paris, close to the home and the University where Anne used to live and work.

COMMEMORATIVE CELEBRATION OF ANNE'S 100TH BIRTHDAY

This year, a special commemorative ceremony will be held on the evening of March 29th 2019 to celebrate Anne's 100th Birthday. Hélène Schützenberger will be present to celebrate her mother's lifetime achievements and the Trainers Manuela Maciel and Leandra Perrotta, will be present to officiate the ceremony and honour Anne's scientific work. Close friends and colleagues, as well as graduates from the School will also be present to honour the memory of Anne. Participants of the workshop are invited to attend this special commemorative ceremony to honour our great teacher Anne Ancelin Schützenberger.

TRAINING IN TRANSGENERATIONAL THERAPY

This workshop is part of the requirements for admission to the Anne Ancelin Schützenberger International School of Transgenerational Therapy to obtain the Certificate as **PRACTITIONER IN TRANSGENERATIONAL THERAPY (CPTT)**. The two year training will continue from the 16th - 20th October 2019 in Lisbon, Portugal and in Torino, Italy in October 2020. The workshop in Paris may be taken as part of the training but is also open to anyone who would like to explore Transgenerational issues for personal or professional reasons.

The initiation of this special school grew out of the need to create a joint international effort to continue the unique psychogenealogical approach to psychotherapy developed by Prof. Anne Ancelin Schützenberger. Following the legacy of her meaningful and important work we realized this growing field required a training process for professionals to achieve a focused understanding and knowledge to be more effective in clinical work dealing with transgenerational trauma and positive legacies and its personal, social and historical consequences.

Family legacies play a direct role in the formation of emotional symptoms and can cause repetitive patterns of behaviour such as the "anniversary syndrome" or "invisible loyalty" which are repeated from one generation to the next. Future generations preserve their loyalty and deal with unfinished business by accommodating to dysfunctional patterns in the family of origin and re-enacting similar life scripts.

Anne Ancelin Schützenberger
International School of Transgenerational Therapy

Some of the clinical tools and techniques which will be taught during the training comprise the Genosociogram, the Family Atom, the use of Toys, Incognito Auxiliaries, Ancestral Psychodramatic techniques and Transgenerational Movement and Bodywork.

This workshop is open to Psychologists, Psychodramatists, Social Workers, Psychiatrists, Psychotherapists or anyone interested in personal transgenerational work. If you are interested in joining this workshop or the training please fill up the attached registration form and send it to: psychogenealogy@gmail.com
